I put the Mag-Boosta on my John Deere 4200 diesel tractor, and the result is amazing. There is a certain hill that I have never been able to climb in high-range. When climbing this hill in high-range, the tractor used to fall below 2,000 RPM and start to stall. After putting on the Mag-Boosta, the tractor can take the hill in high-range, and the engine speed never falls below 2,500 RPM. The engine's improvement was immediate. I put the Mag-Boosta on the diesel fuel line after the fuel pump just before the fuel filter. I am sold, the Mag-Boosta works great. Installation took about 1-minute.
