Hi Peter.

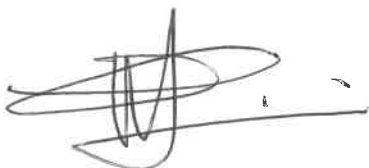

I am writing to thank you for the Mag-Boosta you fitted on my car a few months ago. It is a Chevrolet Aveo 1,6 liter petrol engine, if you remember.

I am truly amazed by the difference the Mag-Boosta has made on the engine performance of my car. The engine now runs so smoothly and noiseless. Acceleration is now much sharper and seamless than before ! I have also noticed the fuel consumption has gone a tad down.

For such a small gadget that takes about five minutes to fit, delivering such a performance is truly a wonder.

I highly recommend it to anyone who cares about engine performance and efficiency.

Thank you so much Peter once again for such an amazing invention.
