Hi Peter

04/11/2020

I do apologise for only getting back to you now. We've been very busy at the shop, with a new outlet coming on line this month.

I was interested in your Mag-Boosta when we first spoke in October and with your offer of a two week, no obligation trial, I was happy to go ahead. I was impressed at how quickly you fitted the unit at your workshop to my 2018 VW diesel Golf and the simplicity of the Mag-Boosta itself.

You stressed the Mag-Boosta is an engine protection device and not a fuel saver. Knowing now how bad our fuel really is in RSA and that the price of a fuel pump is around R25000, I'm really happy to have the Mag-Boosta fitted !

Here's my findings.

1. More power.
2. Better throttle response.
3. Smoother.
4. Around town – range improvement of 19%.
5. Open road – range improvement of 25%

For me, that is a huge difference !

I look forward to seeing what the outcome is, once you've fitted the next Mag-Boosta to the Mini.

Best regards
